*Reasons for Allowance*

1. The following is an examiner's statement of reasons for allowance:

The closest prior art is considered to be Aziz et al. (U.S. 6,392,250), which teaches an organic electroluminescent device comprising a multi-layered hole transport region but does not discuss the property of hole mobility (see col. 9, lines 34-36). Aziz et al. fails to teach or to render obvious either alone or in combination with other prior art a device with one each of a hole injecting layer, hole transporting layer, and an intermediate layer between the hole injecting layer and the hole transporting layer with the particular hole mobility relationship to the hole injecting layer and the hole transporting layer as required by independent claims 1 and 9.

Accordingly, claims 1-16 are allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dawn Garrett whose telephone number is 571-272-1523.
